

Bertrange, the 10th of June 2021

## **ACL launches an online travel insurance, in partnership with Bâloise Assurances**

*In order to support its members in their travel plans, the Automobile Club du Luxembourg (ACL) is now offering a travel insurance - to be taken out online, but also in-house - in collaboration with Bâloise Assurances. Two types of coverage are offered: cancellation insurance and luggage insurance, for the year or a specified period, to offer as much flexibility as desired.*

As the summer holidays are approaching and the vaccination campaign is well underway, the desire to get away from the daily routine is becoming more and more pronounced. To accompany its members in a context that remains uncertain, ACL is now offering a digital travel insurance in collaboration with Bâloise Assurances, with whom ACL shares a vision of innovation and service.

The purpose of this new insurance is to provide a flexible and competitively priced offer to ACL members. In fact, it is tailored to their needs: whether for a certain period or annual basis, ACL members can subscribe at any time and for the period they wish. In addition to this flexibility in duration, this offer allows members to choose the appropriate coverages in a versatile manner; they can choose between travel cancellation insurance and luggage insurance and can also combine the two. Finally, to meet the expectations of its members, these insurances can be taken out directly online in a few clicks or in the ACL office in Bertrange.

"Taking out a travel insurance is the right thing to do, because no one is immune to the unexpected: not being able to go on holiday or losing one's luggage are unfortunately unpleasant incidents that can happen anytime. This is why the ACL wanted to offer its members an easy way to take out the coverage of their choice, so that they can book their holidays with a complete peace of mind, knowing that they are well covered in the event of a problem", explains Jean-Claude Juchem, CEO of the ACL.

The cancellation insurance covers policyholders in the event of illness, dismissal, promotion, separation, or divorce, up to €50,000. The luggage insurance covers the loss of suitcases, cameras, and sports equipment up to €3,500 when travelling. We also offer the possibility of insuring up to 8 people in the contract. Another interesting aspect is that the customer receives his or her insurance certificate in PDF format immediately upon signing up online.

"The new insurance that we are offering to ACL members covers them in the event of cancellation or interruption of their trip due to illness, including Covid19. In the current context, this is an undeniable plus that will help to reassure them in the preparation of their holidays," adds Romain Braas, CEO of Bâloise Assurances.

#### **About the ACL**

Founded in 1932, the Automobile Club du Luxembourg (ACL) is an association of more than 190,000 members that offers 24/7 mobility (in Luxembourg and internationally) and housing assistance, advice and benefits, as well as individual and tailor-made mobility services. As the first mobility club in Luxembourg, ACL supports the development of a sustainable and multimodal global mobility. ACL is committed to the rights and interests of its members in the field of mobility in all its aspects with the aim of guaranteeing and promoting access to mobility, its quality, the free choice of means of transport and the safety of its members. ACL is a partner of ARC Europe, a roadside assistance network of more than 40 major European automobile clubs and the Fédération Internationale de l'Automobile (FIA), which is committed to sport, mobility, sustainability and road safety at a global level. The ACL is also ISO 9001: 2015 certified. For more information, please visit: [www.acl.lu](http://www.acl.lu)

#### **About the Bâloise Group in Luxembourg**

Bâloise Luxembourg has been present in Luxembourg since 1890 and, since then, it has been firmly embedded in the country's economic landscape and society. It is part of the Swiss Baloise Group, which is also present in Belgium, Germany, Liechtenstein and Switzerland. Bâloise Luxembourg meets the needs of its private and institutional customers for property and casualty insurance and for pensions and savings. It also offers pension and investment services across borders in many European Union countries. Its ambition: to make insurance simple, intuitive and humane, by continuous improvement of its offering of products, services, communications and processes. In short, Bâloise aims to become the first choice for everyone who wants to feel simply safe. More information on : [www.baloise.lu](http://www.baloise.lu)
