

Baloise Luxembourg

Baloise, a Luxembourg insurer

We have been offering insurance services in the Grand Duchy of Luxembourg since 1890 and are firmly rooted in the economic and social fabric of the country. Baloise Luxembourg belongs to the Swiss group Baloise, which is also present in Germany, Belgium, Liechtenstein and, of course, Switzerland.

An offer that meets all your needs

Baloise Assurances provides a wide range of insurance, pension and wealth-building products to private and business customers.

Baloise Luxembourg is not only present on the Luxembourg market: it also works closely with highly successful banking partners and distribution partners outside its domestic market selected to sell wealth building and pension solutions in a number of European Union countries.

The strengths of Baloise in Luxembourg

Quality, transparency, respect and straightness are the values that continue to guide the company's actions and allow the development of solid partnerships.

Your Safety partner

With the introduction of the 'Safety World' in 2008, Baloise became the first insurer to combine prevention and insurance and thus the preferred partner in safety related matters.

A corporate culture to serve you better

Our priority: our customers come first.

All our employees are mobilised and actively committed to offering you the most perfect service.

Every employee, whether on operational or commercial level, aims for an optimal performance. The respect for diversity is also part of our corporate philosophy and allows everyone to realise himself in his job while participating in a large common project: your safety.
